It may be that the great oration of Mr. RUMMANS caused him to believe that because he is an insurer his election to the Senate is insured.

Mr. RUMMANS will have abundant time to run-time on the vanities of life after he shall have failed to attain to a seat in the Senate.

If he honest, self-respecting Republicans of Kansas and Lewis counties know their Senatorial candidate thoroughly, they will not vote for him.

MR. RUMMANS may(?) have a knowledge of Latin and English, but even his smattering of these will amount to more than anything he will ever obtain of Senatorial knowledge.

OUR friends certainly do hold to the belief that the race is not to the swift nor the battle to the strong, when they claim both for Mr. RUMMANS, because he knows Latin and English.

MAY it not be barely possible that Mr. RUMMANS laid claim to possessing a knowledge of Latin, supposing that such was indispensable in a Senator, in his time having heard, likely, of Roman Senators.

THAT the Banks of Mayville were able to "tide over" the panic of 1893 was not due to the so-called Republican candidate for Senator from this District. He drew his money out of one bank, and tried to create a "run" on it and all the other banks by advising everybody else to draw theirs out. A run on the Mayville Banks at that time would have wrecked numerous business firms in this city. Is that a safe man to send to Frankfort—as a lawmaker?

COLONEL BRADLEY had an ovation at Ashland. He spoke to 10,000 people, being introduced by Captain J. C. BRYANT, a life-long Democrat who is going to vote for the Republican standard-bearer. Of course, every good, honest Republican will glory in the pluck of this good, honest Democrat, who refuses to support a dishonest Democrat like WAT. HARDIN. But what of the Republicans who abuse a fellow-Republican because he refuses to support a dishonest Republican candidate in his own party? Is there any consistency in their course?

Uncle Sam's Shortage.
The deficit in the National Treasury for the present fiscal year—from July 1st to date—is \$20,362,101.00.

Mr. RUMMANS is surely a "run on" if he imagines that Senatorial honors await him.

In the two years, seven months and thirteen days of the Cleveland Administration the expenditures of the Government have exceeded the receipts by \$132,240,912.64. What a dandy Democratic record!

It's one thing to be a candidate for the exalted office of Senator and entirely different thing to attain to a seat in that distinguished assembly, as a certain individual shall most likely find out further along.

Would you believe it? JOEL "DUP" RUMMANS, who wants to be Senator, and who poses as a man of much money—much, in fact, that he drew it out of a bank in this city in 1890 and did his best to create a "run" on that and the other banks—well, JOEL "DUP" RUMMANS hasn't been assessed on a single dollar's worth of property in either Lewis or Mason county for the past five years! There's a dandy tax dodger to boot, and he is a "dodger" in more than that he will be abundantly paid to go by and as the

STANDS ALOOF.

Pope Leo's Letter to the American Archbishops.

The Catholic Church Will Have Nothing to Do With Christian Unity.

The Pope's Attitude Toward Religious Congresses. He Not Only the Catholic Church, But the Entire Movement Toward Christian Unity.

WASHINGTON, Oct. 19.—Among high ecclesiastics here, it is felt that the pope's letter to American archbishops urging non-participation by Catholics in "promiscuous religious congresses" opens up a question of more importance than the sectarian school question, the Catholicism movement, or the other issues which have been presented of recent years.

It is said that the pope's opposition to religious congresses does not affect the Catholic Church alone, but has a bearing on the entire movement toward Christian unity, which began in England and has spread through this country. The purpose of this movement was to harmonize all unity, all divergent sects or non-essential, bringing them together on the one essential sect of Christianity. There has been division of opinion as to whether the Catholic Church could enter into this plan of unity. An eminent Catholic preached a series of sermons in Washington, showing that there was but one plan of unity possible, and that was the return of all sects to the Catholic Church. Other Catholics have taken a more liberal view, and this broader sentiment found expression in the attendance of Cardinal Gibbons at the conference of religious at Chicago. At that time, Mgr. Stoll was in Chicago, but took no part in the congress. The cardinal's paper and subsequent magazine articles showing the coming of the church in which all sects might stand attracted much attention.

The language of the pope's letter is said to leave no room for doubt as to the question of Rome on the holding of congresses or the broader question of church unity, as the following direct statement makes clear: "Although these promiscuous conventions have until this day been tolerated with prudent silence, it is well nevertheless to seem more advisable that Catholics should hold their conventions so separately."

It is said that this statement is so direct as not to be open to interpretation, and doubt is expressed as to the very liberal interpretation placed by Archbishop Ireland on such clear statement from the pope. It is believed, also, that there is any misunderstanding or broad interpretation given to the pope's language he will speedily issue a second letter, as he did when the Knights of Lysias letter was liberally construed, leaving no room for doubt as to his position on promiscuous congresses.

FIRE SWEPT.
TOWN OF BLANCHETON, O., damaged to the extent of \$100,000—Fifty Buildings in Ruin.
BLANCHETON, O., Oct. 19.—Some person carelessly threw a lighted cigar stump on the floor of Hurk's saloon, on Broadway, Thursday night, and now Blancheton, a pretty little town of 2,500 souls, forty miles from Cincinnati, is fire-burnt living hell.

Fire and smoke and burning timbers have filled the air for twelve hours, and have created a scene of excitement and devastation never before witnessed in the state. Every business house in the place, with one or two exceptions, has been completely gutted and the smoke, while two churches, an old Fellows, a Knights of Pythias and a Masonic building, two banks and over twenty residences have also been added to the list. The fire at once got beyond the control of the volunteer fire department, which consisted of a single hand-pumped engine, and those citizens who were not engaged in saving their own property worked the levers. The protracted drought made matters still worse, as all the wells had practically been emptied, and the reservoir, a mere pond on a slight elevation, had long since gone dry. The loss is estimated at \$100,000. Fifty buildings in all were consumed.

Harry Baldwin is thought to have been burned to death in the Blancheton bank building.

PRIZE FIGHT.

Practically Unchanged But Nearing a Crisis.

Corbett Gave His Exhibition Glove Contest at Hot Springs.

Gen. Taylor Witnesses a Contest and Was Well Pleased at It—Corbett Says Fitzsimmons Will Not Come to Hot Springs if He Can Avoid It.

LITTLE ROCK, Ark., Oct. 16.—The prize fight situation, while practically unchanged so far as the public is aware, is probably nearing a crisis. Your correspondent called at the governor's mansion Friday evening and was informed by the secretary that he had nothing to say to the public at present.

"The situation is unchanged," remarked Gov. Clarke. "Affairs are in statu quo," he said, smilingly. "I am waiting on developments. I have said to Corbett and Fitzsimmons should not fight at Hot Springs, and that is the issue which is engaging my attention, and I shall see that it does not take place. They say that I have nothing further to say now."

Gen. Joe H. Taylor, of the Arkansas state militia, who returned from Hot Springs Friday morning, said: "I have been over at Hot Springs," he said, "and I must say I was agreeably surprised in the pugilists. I had never seen any pugilists before. My whole idea of prize fighting has changed. I went to see the exhibition at the Hot Springs opera house. The best people in Hot Springs were there. I saw the gloves they propose to use in the Corbett-Fitzsimmons encounter and I think those gloves are all right. They were big, soft, and padded, and all the damage that could be done with them would be a jarring and shaking up, and it don't hurt those brawny fellows to be shaken up. The best people, wives and daughters in Hot Springs, witnessed one of the exhibitions in Hot Springs, and so did I, and Judge Duffell and other judges. Pictures taken with the pugilists and found them very nice fellows."

Corbett gave an exhibition of his boxing gloves Friday night to a crowded house. The air is full of rumors of every nature concerning the fight.

LITTLE ROCK, Ark., Oct. 16.—Your correspondent interviewed Corbett at a late hour Friday night. He said: "I am a prisoner while here in charge of W. & B. Babcock, of Hot Springs. My habeas corpus case will be heard on Saturday. There is only one thing that will prevent the fight taking place on Friday night at Hot Springs and that is Fitzsimmons' failure to materialize and Bob will get out of coming if he possibly can. I did not see Corbett. I will say also that I shall work for the championship of America and the world if I go into the ring."

DUN'S REVIEW.

An Increase in Failures in the United States and Canada.

Some of the Railroads Rep. rt Large Gains in Earnings.

But on the Whole Are Less Than in 1899—Textile Manufacturers Have Strong Markets for Material—Honey Market—Faster—Faster—Faster.

NEW YORK, Oct. 16.—Dun's review Saturday says: Failures for October thus far cover liabilities of \$3,923,599, of which \$1,539,265 were of manufacturing and \$2,185,334 of trading concerns. Failures for the week have been 253 in the United States against 233 last year, and 46 in Canada against 43 last year.

The events of the week are promising in nature, though to speculative markets not entirely encouraging. The great advance in cotton had arrested exports and so deranged exchanges that shipments of gold were for a time apprehended, but the break in the market indicates natural movement in the product may soon be restored. The halting of demand and moderate yielding of prices in the great industrial markets shows that a season of depression is not yet reached. The cotton market has shown a decline in iron and steel products, in hides and leather and a more yielding tone in boots and shoes.

None of the railroads report large gains in earnings, but on the whole, returns are still 6.7 per cent. smaller than in 1899, though 4.9 larger than last year.

Textile manufacturers have strong markets for materials to support them. But scarcely any advance is seen in the cotton goods, though the price for the month has averaged 4.1 per cent. The price of some worsteds have been advanced because advanced abroad, but it is as questionable as ever how far the market can be held by domestic makers and woolen manufacturers have to face, not only foreign competition, but an export tendency of popular demand toward worsted fabrics. Sales of wool, 21,299,000 lbs. for the month of October, as against 13,702,000 in 1899, greatly exceed actual consumption.

Money markets have been easier with the exchange higher, and the demand for crop purposes is remarkably small, while commercial offerings are increased by importers' settlements on foreign accounts, but the business clearings for the past week are 23.3 per cent. larger than last year but 11.7 per cent. less than 1892.

CAPT. HOOPER.

Of the United States after Service. Makes a Report.

WASHINGTON, Oct. 16.—Capt. Hooper, of the United States cutter service, in command of the Behring sea fleet during the annual cruise, has made a report of the operation of the fleet to the treasury department.

Among the points touched upon are the men being profitably employed and considerable course good being taken.

He discusses in all other officers the more, the reckless slaughter of the female seals in the open sea, and urges more stringent regulations, he says.

"The sealing season in Behring sea lasts but six weeks. The sealing fleet consists of 50 or 60 vessels, which are spread over a large area, and much of the time concealed by fog. To find and board them all, and compel an observance of the regulations, furnishes ample work for considerable fleets."

"Saved My Life"

A VETERAN'S STORY.

"Several years ago, while in Fort Snelling, Minn., I caught a severe cold, attended with a terrible cough, that allowed me no rest day or night. The doctors after exhausting their remedies pronounced my case hopeless, saying they could do no more for me. At this time a bottle of

AYER'S Cherry Pectoral was sent to me by a friend who urged me to take it, which I did, and soon after I was greatly relieved, and in a short time was completely cured. I have never had much of a cough since that time, and I firmly believe Ayer's Cherry Pectoral saved my life."—W. H. WARD, 8 Quimby Av., Lowell, Mass.
